William.H.Nell@lmco.com**

Overview

- u **Status**
- u **Current Issues**
- u **Future Plans**

Status

- u **NIMA RFC released (00A-0318) to place results of CIIP Working Group process under configuration control**
 - Needed to support DAGS development and NIMA Libraries acquisitions
 - Available on CIIWG Home Page
- u **RFC reviewed at SUAA ERB - 27 Jan**
- u **RFC scheduled for NIMA SU CCB - 13 March**
- u **CIIP extract created to support IAS Validation Testing**

Current Issues

- u **Support for Geospatial data**
 - Need to add former GGI&S requirements to A3I requirements
- u **Lack of definition of related CIIF Management interfaces**
 - **Exploitation Management, Dissemination Management, Production Management**
 - » Required to be able to “retire” legacy ICDs
 - **SUAD Dissemination Management Study identifying future DM interfaces**
 - » Planning to generate IDL - due February
 - **Softcopy Exploitation Management (SEM) activity identifying future EM interfaces**
 - » Planning CIIF compliance 4Q98

Future Plans

- u **Beginning analysis of geospatial requirements impact on IAS Spec and CIIP**
 - GIAS Working Group
- u **Continue refinement of CIIP for Image Access**
 - IAS Validation Testing
 - Implementor feedback
- u **Explore extending CIIP to other interfaces**
 - Exploitation
 - Management
